

Kitsap County Occupational Health Program

Coordinating Care Between Occupational Medicine and Occupational Health Therapy Providers After an Emergency Room/Urgent Care Visit Process.

Kitsap Physical Therapy (KPT) is committed to achieving your best possible outcome and to helping you return to work and normal living as soon as possible. An integral part of this process is establishing care with an occupational health specialist at KPT and an occupational medicine physician or adjunct staff member.

Below are occupational medicine provider groups you can select from:

The Doctors Clinic – (360) 782-3300

9621 Ridgetop Blvd. NW
Silverdale, WA 98383

MultiCare – (253) 459-6541

19835 10th Ave NW
Poulsbo, WA 98370

Kaiser Permanente – (360) 895-5000

1400 Pottery Ave.
Port Orchard, WA 98366

Puget Sound Work Injury Clinic – (360) 627-8344

812 Cherry Ct.
Bremerton, WA 98310

Please call one of the above groups to establish care with an occupational medicine provider prior to your appointment with KPT. Also, please call your preferred KPT office and let them know the name of the occupational medicine physician, nurse or PA that you will be working with. This will allow us to send all therapy reports to your selected provider and will ensure expedited communication with your L&I caseworker to ensure prompt approval and appropriate management of your case.

Should you have any questions, please contact our Physician Liaison at 360.516.3466 or CeciSittser@KitsapPT.com.
